Attention: Ms. Liana Walsh Esq.

Dear Ms. Walsh,

As suggested, I am enclosing the documents for ownership for patent number 6418964, application number, 09/627,902. Also, enclosed please find the information for patent number 5845999, application number, 08743926. As you know, I submitted form number SB/66 for patent number 6418964, but it has come to my attention that patent 5845999 is seriously overdue. Given the current status of that patent 5845999, my question is, should I file the maintenance fee for that patent first? The fact is both patents make a system known as, Hickey Pin System. If both patents can't remain active then the system cannot exist. Thus, I would need to consider my options at that point. Perhaps, I can get your expert guidance on this matter.

Again, I want to thank you for your help and I appreciate all your support. As I shared with you in our telephone conversation a small business owner needs all the support one can get. All the folks at the USPTO have treated me very well and for that I thank you,

Sincerely,

Richard A. Bedell
